

Public Notice of Violations of my Sincerely Held Religious Beliefs

For the record, the criminals that are receiving illegal surveillance information from inside of my home are advancing or 'driving' certain imagery into my daily life. This has been going on for years now and they continue to exert a constant presence in our home through the use of loud vehicles that drive by our house as I am completing normal daily tasks and chores.

Today, since I posted my latest documentation of the Nazi-ism that is taking root inside of American government, the vehicles have been driving by with frequency while I am outside and with specifics as I work inside. To be clear, my latest documentation is about the use of lethal force to destroy a vessel alleged to be carrying drugs off the coast of Venezuela.

The latest imagery that has been pushed into my life is that of 'pieces of meat' inside of a 'boiling pot' of water. This is the type of constant 'echo' or 'mirror' that amounts to a constant conversation with my life through the use of illegal government surveillance and my observations as I move through my day.

For the record, this has been an ongoing problem for a very long time now and can be likened to the use of 'gang signs' that rival gangs use to speak to one another. In this instance, I represent God's team - those people that believe in a moral code of proper behavior. These vehicles that are being driven past our home represent satan's gang of criminals that believe in an immoral philosophy of existential power to do anything they please - so long as they can 'get away with it' and they constantly are evading responsibility for their actions like a ghost that disappears before a person can capture proof of its existence.

I am writing this document to record that this activity is being forced upon my home and is a severe violation of my sincerely held religious beliefs. I am writing this document to record that this process began as I became active in the political world and has continued to incrementally grow ever since. I am writing this document to record that the United States government is facilitating a protection of the criminals that are using this technology to violate my sincerely held religious beliefs, and I do not consent to this type of interaction with my home whether the messaging is threatening, vulgar, evil, or not.

I am speaking out against the clear abuse of power that I am witnessing and I am placing the direct responsibility for these actions on Donald Trump, and rogue members of the United States intelligence and military communities that are using their positions of trust within the American government to wage a literal war against the lives of innocent Americans and others around the world.

I am advocating that others speak out against this activity if they, too, are witnessing events that threaten or harm their own moral consciousness. I believe that our thoughts, words, and truthful conversation about the criminal activities that we are witnessing is the solution to this complex web of criminal activity. I will not sit quietly as I witness our world being consumed by the evils of satanic Nazi-ism.
